

Dear Marion,

Last year, Rainforest Trust joined the Protecting Our Planet Challenge—our pledge to invest \$500 million to reverse biodiversity loss and conserve 30% of our planet by 2030.

Since announcing this initiative, we have invested \$112,446,205 in 63 projects that, upon completion, will protect 24,033,069 acres.

We are proud to be one of the founding organizations of the Protecting Our Planet Challenge, one of the largest private funding commitments ever to biodiversity conservation. Visit the [Protecting Our Planet webpage](#) to learn more.

Thank you for your support. We are grateful for your ongoing commitment to reversing biodiversity loss.
